Bankers Issue ‘Seismic’ Warning: Bitcoin, Ethereum, BNB, Cardano And XRP Could Replace The Dollar In Just Five Years As Crypto Market Price Adds \$1 Trillion

Deloitte's annual global blockchain survey found that a majority of [executives surveyed](#) believe crypto will play a huge part in the future of finance.

According to Deloitte, “In a seismic shift, financial leaders increasingly see digital assets as the future.”

Thousands of executives were surveyed across the globe from the Americas to Asia, Europe and the Middle East. Out of those surveyed, 76% said digital assets will be a “strong alternative to, or outright replacement for fiat currencies in the next 5-10 years.”

The results of the survey suggest an amazing sign of not only the growing popularity of crypto and crypto technology, but belief in crypto's long-term potential in finance getting stronger.
